

ATTACHMENT A

ACADEMIC AND NON PROFIT LABORATORY ASSURANCE LETTER

The T7 gene expression system is based on technology developed at Brookhaven National Laboratory under contract with the U.S. Department of Energy and is the subject of parent applications assigned to Brookhaven Science associates, LLC. (BSA). BSA will grant a non-exclusive license for use of this technology, including the enclosed materials, based upon the following assurances:

1. These materials are to be used for noncommercial research purposes only. A separate license is required for any commercial use, including the use of these materials for research purposes or production purposes by any commercial entity. Information about commercial licenses may be obtained from the Office of Intellectual Property and Sponsored Research, Brookhaven National Laboratory, Bldg. 185, P.O. Box 5000, Upton, New York 11973-5000, telephone (631)-344-7134.

2. No materials that embody the T7 gene expression system may be distributed further to third parties outside of your laboratory, unless the recipient receives a copy of this license and agrees to be bound by its terms. This limitation applies to plasmid vectors designed to enable the *in vivo* expression of cloned genes under the control of the T7 RNA polymerase promoter and *E.coli* strains BL21(DE3), BL21(DE3)pLysS, and BL21(DE3)pLysE, and any derivatives of them.

You may refuse this license by returning the enclosed materials unused. By keeping or using the enclosed materials, you agree to be bound by the terms of this license
